DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 24 March 2009 has been entered.

Response to Arguments

2. Applicant's arguments, see response, filed 24 March 2009, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Election/Restrictions

3. This application is in condition for allowance except for the presence of claims 10, 12 and 14 directed to an invention non-elected with traverse in the reply filed on 30 May 2007. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue.

Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Allowable Subject Matter

4. Claims 1-9, 11, 13 and 16 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: While it is known in the prior art to provide an indication of a current zoom setting along with maximum and minimum zoom settings, the combination of such an indication along with the first and second modes including the use first and second signal processing means as claimed is not taught or suggested by the prior art.
